ESITE, Jeremiah Tamarankuroemi	jerry4destinychild@yahoo.com	+2347062290287
PROFILE	linkedin.com/in/esite-jeremiah	Warri, Delta State, Nigeria

Motivated, passionate and goal-driven freelance web and mobile app developer; looking for an opportunity to take my career in software development further. My experience range from programming languages and frameworks in frontend and backend development. I have a good understanding in HTML, CSS, Bootstrap, JavaScript, jQuery, JSON, React, React Native, Redux, PHP, Laravel for API development, Git and GitHub. I am capable of developing and maintaining web as well as mobile applications; working unsupervised alone or in a team.

PROFESSIONAL EXPERIENCE

OncliqSupport | www.oncliqsupport.com | Freelance Full Stack Developer   January 2020 till Date
I work as a freelance web developer to create solutions to problems based on demand from customers. I made use of various web technologies and content management systems to achieve the set goals.

Star Education Plus (https://portal.stareducationplus.org.uk/)
Technologies: Reaact JS, Laravel API, REST, Redux, MySQL, Google Docs and Bootstrap.
Some features include:

- Login authentication to admin and public user accounts
- Section for downloadable files and non-downloadable files
- Embedding of documents from Google Docs
- Purchase of membership plans, services and packages using a cart
- Generation and printing of invoices

Votam Life Gate (https://votamlifegate .com/)
Technologies: jQuery, PHP, REST, MySQL and Bootstrap.
Some features include:

- Login authentication to admin, class teacher and student user accounts
- Input of school information and results.
- Printing of student results

Other Works
- Speed Test App (www.speedtester.com.ng and www.nccspeedtest.ng)
- Vigill Android Application - https://play.google.com/store/apps/details?id=org.vigill
- Design of a recruitment portal (https://jobfinderng.com)
- Basic authentication app (https://github.com/jeremiahtam/app-with-email-auth and https://github.com/jeremiahtam/app-with-email-auth-backend)
- https://github.com/jeremiahtam/school-reg

Unival Infotech Systems | www.univalbiz.com| Networking and Hardware Engineer | Intern
July 2013 – December 2013
As an intern, I worked with various teams in networking the entire institution with LAN cables, RJ45and Sisco switches.
- Computer maintenance, troubleshooting and installing/upgrading of hardware and software as a member of the maintenance team
- Networking of all establishment computer systems and peripherals as team leader.

Nigerian Petroleum Development Company Limited | npdc.nnpcgroup.com | Networking and Hardware Engineer | Internship   September 2011 - December 2011
As an intern at NPDC, I was involved in day-to-day activities that ranged from:
- Crimping of LAN cables.
- Maintenance and troubleshooting of Local Area Network.

- Networking of computer systems and peripherals.
- Updating of computer software and hardware security.
- General computer troubleshooting and maintenance.

SKILLS & COMPETENCES

- Front End Web Development - HTML, CSS, Bootstrap, JavaScript, jQuery, JSON, Restful API, React and Redux
- Backend Development - PHP/Laravel
- Database - MySQL
- Web Development - WordPress CMS
- Mobile App Development - React Native, Native Base, React Navigation and Redux
- Version Control - Git and GitHub

EDUCATION

University of Port Harcourt   March 2019 – October 2021
M.Eng. Electrical/Electronic (Electronic/Telecommunication)

Delta State University, Abraka, Delta State, Nigeria   January 2010 – March 2015
B.Eng. (Hons) 2:1, Electrical/Electronic and Computer Engineering
